

# “LEADERSHIP: A NEW PERSPECTIVE” Pre-Retreat Workshop & Weekend Retreat

Leadership is one of those skills which support every other skill. It is at the very foundation of our success in all levels: personal, professional and collective.

There are thousands of books, articles, and Ted Talks on the subject of Leadership, a simple 'Google Search' will give you 29 pages, Amazon over 75 on this subject alone. Why then do we keep writing about, thinking about, wondering about Leadership? Why is Leadership so difficult to define yet so easy to recognize when we see it?

**Join us in this Journey of Inquiry, Discovery and Transformation:  
3-hour Pre-Retreat Workshop on August 23 and / or  
2 1/2 day Retreat on September 20 to 22**

Find out what is missing in Leadership and how to live it more fully and consciously in all aspects of your life.

Participation in the 3-hour pre-retreat workshop is NOT required for the Retreat. **When you sign up for both (workshop and retreat) until 8/25, you gain the workshop \$30 tuition as credit towards the retreat; and 3 individual coaching sessions with Inely or Mike.**

Inely and Mike will lead you through a revealing journey of:

- **recognizing you're the power of the leader within you;**
- **gathering incredible information and tools for effective integrated leadership;**
- **discerning different styles of leadership and their outcomes;**
- **developing your unique leadership style to inspire yourself and others;**
